Dear Readers,

Planum. The Journal of Urbanism is pleased to present you a **selection of Masters and Master of Science courses** for the next academic years, in Europe and in collaboration with extra-European Universities as well.

Masters and MSc courses have been selected for **their educational programmes and fields of studies**, for the **relevance of the hosting Universities** and for their **aims and formative demands**. Masters and MSc are open for applications for students and practitioners. Feel free to share our newsletter to whom may be interested, such as students, scholars or other colleagues. For further information, please follow the links to *Planum* "News and Events" column, to Universities and Masters websites or use the E-mail contacts. Good reading and good applications!

Planum has recently updated its website and is hosting a growing and updated number of articles and list of contents. The Journal is now articulated into a **"Magazine"** column, with peer reviewed articles; a **"News and Events"** column, with information on call for papers, conferences and competitions; a **"Journals and Books"** column, with presentation and review of international publishers' new books.

Planum is promoted by the **Planum Association**, which is open to academic and research institutes, practitioners associations and scientific journals. It is an international scientific journal with a **proper ISSN code (1723-0993)** evaluated in the **academic rankings of scientific work**. *Planum* is open to **new proposals for articles and specific issues** in addition to **events, calls for papers and book reviews**. Enjoy the reading on our web site and **follow Planum on our social networks as well (see the links below)**.

MASTERS AND SCHOOLS**DPEA | Ecole Nationale Supérieure d'Architecture de Paris La Villette****International Post-Master
Recherches en Architecture 2012-2013****Deadline:** 6 July 2012**Duration:** 1 academic year of 34 weeks with one day at week of lesson**Language:** French**Credits:** 60 ECTS

Les mutations et transformations territoriales, urbaines et architecturales observables dans bien des parties du monde actuel constituent un défi qui ne saurait se limiter aux seuls aspects spatiaux. Observer ces transformations ne saurait donc suffire: il faut les comprendre pour mieux agir.

ETH

Eidgenössische Technische Hochschule Zürich
Swiss Federal Institute of Technology Zurich

ETH | Swiss Federal Institute of Technology Zurich

Master Courses

- **Spatial Development and Infrastructure Systems Master (Credits ECTS: 120)**
- **Geomatic Engineering and Planning Master (Credits ECTS: 90)**

Deadline: 1 November or 15 December 2012 - to start the programme the following October

Duration: 3 or 4 semesters

Language: English and German

Credits: 120 - 60 ECTS

The Spatial Master Course offers a broadly based education in the fields of Spatial Use, Development and Economics, Planning Methodology, Communication, Transport Planning and Systems. **The Geomatic Master's** knowledge ranges from the geosciences to computer science to spatial planning. Geomatic engineers monitor the structures of our living and working space, and contribute to a better understanding of processes relevant to the earth's environment.

TU | Delft University of Technology

Master of Science

Architecture, Urbanism and Building Sciences

Deadline: between December and April - to start the programme the following October

Duration: 2 years

Language: Dutch and English

The Faculty of Architecture at TU Delft offers a dynamic Master's programme very much informed by the unique circumstances of the Netherlands, where the high population density has strongly influenced thinking about how to work creatively with space. The Faculty has an outstanding reputation and attracts students from all over the world. The programme is especially strong in such areas as design, research, management, technology and research-by-design.

UCL | University College of London

The Bartlett Faculty of the Built Environment

Master of Science

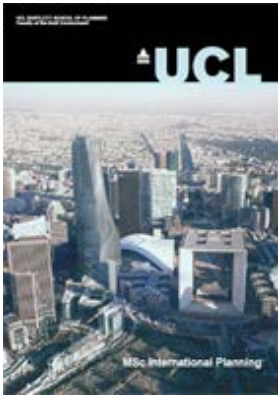

MSc International Planning

Deadline: 3 August 2012

Duration: Full-time 1 year; Part-time 2 years or more

Language: English

Credits: 180 ECTS

The MSc International Planning is intended for students who want an international perspective on planning systems and cultures or are likely to work outside the UK after their studies. The programme consists of six core modules (90 credits), one specialism with two modules (30 credits), and a research dissertation (60 credits).

UPC | Universitat Politècnica de Catalunya

Master of Science Master's degree in Urbanism

Deadline: before September 2012
Duration: 2 years
Language: Spanish
Credits: 120 ECTS

The field of urbanism must be closely linked to the rapid changes in our society in the new information era, and to the growing complexity of urban phenomena and their interaction. The aim of this master's degree is to provide resources to confront the challenges of contemporary urban planning, as well as new tools for critical intervention in different contexts.

KTH | Royal Institute of Technology Stockholm

Master of Science Master Sustainable Urban Planning and Design (THSSM)

Deadline: 15 October for studies/project work starting in January, later for those in the spring
Duration: 2 years
Language: English
Credits: 120 ECTS

The Master's programme in Sustainable Urban Planning and Design prepares students for these tasks and provides them with a thorough understanding of the planning process and the aesthetic, social, economic and environmental determinants that contribute to sustainable urban development. The programme brings together students of architecture, planning, civil engineering, and natural and social sciences.

University of Copenhagen

Master of Science MSc in Landscape Architecture and Urban Design

Deadline: 1 January - to start the programme the following October

Duration: 2 years

Language: English

Credits: 120 ECTS

UNIVERSITY OF
COPENHAGEN

As an MSc in landscape architecture and urban design, you shape the future urban environments and housing areas, parks and landscapes, so that they provide excellent human and natural settings for many years to come. During the MSc programme, you specialise in landscape planning, park management or urban design.

European Master Course Planning and Policies for Cities, Environment and Landscape

Deadline: forthcoming

Duration: 2 years

Language: Italian and Spanish

The European Masters Course in Planning and policies for the City, Environment and Landscape is a joint degree course offered by the CAP Consortium partners, that include two Italian universities, two Spanish-Catalan universities and one Portuguese university. Students will have the possibility of studying for one semester at three universities of choice, and can choose to work on their thesis and/or participate in a job placement scheme in numerous other international destinations.

EMU European Postgraduate Master Urbanism Strategies and design for cities and territories

Deadline: related to the hosting institution

Duration: 2 years (4 semester)

Language: English

Credits: 120 ECTS

The joint European Postgraduate master programme in Urbanism is focused on a set of key issues (to be periodically reviewed and up-dated) which reflect contemporary challenges within cities and territories. The issues frame the design studios and provide the students with a structure to orient their individual education tracks. The master course is design oriented and affirms the role of design in the knowledge process, while integrating different levels of scale. Learning by doing, research by design and the project as knowledge producer constitute the key concerns and standpoints of this master.
